

## Safety and warning information A Mano

A Mano is an effective and reliable personal protection device. It releases a liquid irritant to temporarily disable a threat at a safe distance. When used properly, it does not leave permanent injury or causes death.

The manufacturer and distributor of A Mano does not guarantee the effectiveness of the product as a self-defence device.

A Mano can be harmful to the user if used improperly. There is a risk of injury to the eyes if the device is used at a distance of less than 0.60 m between the mouth and the face of the attacker.

- Do not expose the device to temperatures below -20 degrees Celsius and above 60 degrees Celsius.
- Do not press the **muzzle** against a surface and pull the trigger.
- Never expose A Mano to direct heat or embers.
- Do not insert any objects into the spray tube.
- Always change the can of irritant (SHARP) outdoors.

Do not use A Mano until you have fully understood the operating instructions and the safety and warning instructions.

**Due to the high velocity of the liquid irritant jet, use of this product below the minimum safety distance (0.60 m) may result in blindness, death or serious injury.**

## Instruction manual Proper use and safety of A Mano

### **A Mano is not a Toy !!!!**

Keep it out of the reach of children. It is the owner's responsibility to keep it safe!

**Always hold A Mano** in a safe direction, only point it at the attacker only in case of emergency.

After triggering **A Mano**, dispose of the device or clean it thoroughly with gloves. Clean it thoroughly with gloves, as it may be contaminated with the irritant.

Do not allow **A Mano** to be used by persons who are not familiar with its safe and correct use.

As an additional safeguard against accidental triggering, **A Mano** is equipped with an OFF position. By turning the spray head, the **ON** position is reached and **A Mano** is ready for use.

The handle can be replaced by sliding the handle downwards. (Ladies / Men's handle)

**A Mano** is delivered with a test can (only in set 1). This is used to practice to familiarize yourself with the device close.

For practice purposes, press the trigger only intermittently, not continuously. This will give you more attempts to test. The test cans and the sharps cans can be ordered separately.

Never dispose of the device with filled irritant cans, but empty them in a safe place.

# Unpacking & Operation

The delivery includes the following parts:

- Container with spray unit and carrying handle
- Second carrying handle
- 1 X test bottle to learn how to use A Mano safely (only in set 1)
- 1 X irritant bottle sharp !!!!!!!!!!!!! (marked with sticker ANIMAL DEFENSE)

Check that the spray head is in the OFF position !!!!!

Check that the sharps irritant bottle with the sticker ANIMAL DEFENSE is present.

Check that a test bottle (black) is included. (only Set 1)

## Put on AMano

**A Mano** must be in the inside of the hand.

Turn the spray head to the **ON** position. Press the trigger briefly with light pressure of the thumb. **A Mano triggers.**

To change the test bottle, turn the spray head to the arrow between **OFF & ON**.

Now the spray head together with the test bottle can be taken out and exchanged.

Replace the empty bottle with the desired new bottle.

To do this, proceed in reverse order.

### Attention:

When replacing the bottle and in general, do **NOT point A Mano at your FACE**, but always in a safe direction !!!!!!!  
Press the spray head on the arrow symbol and turn it in the desired direction **OFF or ON**.

When A Mano is not in use, the spray head must be set to **OFF** to prevent unintentional accidental triggering.  
Only use the SHARP irritant bottle outdoors and, if necessary, pay attention to the wind direction !!!!!!!

This way, if the device is accidentally triggered, no damage will occur in the home.
